Mentor-Review Module 2 Unit 1 Lesson 3

## You need to submit this task for review.

Watch the video lessons to complete this task. If you have any questions, you may ask your mentor's help via the use the real time chat on the learning platform. You can find it on the down right corner of your screen.

After you submit the completed task, mentors will review it and send their feedback via email. Don't worry if your work is not approved: you can always retake the assignment, and it won't affect your final grade.

## Goal

that you need to create:Mobile devices: <688px</li>

Create different breakpoints for different devices. Here is the list of breakpoints

- Tablets: <992px
- PC: >1312px

Instructions

Open your VS code, and create the "index.html" and "style.css" files.

To accomplish this goal, follow these steps:

- In your "index.html" file, create <div> containers with the following elements:
  - device"
    A tablet class with a tag inside, which says "This is for a tablet"

A mobile device class with a tag inside, which says "This is for a mobile

- A PC class with a tag inside, which says "This is for a PC"
- In your "style.css" file, create properties following these steps:
- the element.
  - Hint: This is the "display" property.

Select the mobile, tablet, and PC classes, and add a property to hide

while the rest of the class is hidden.

the rest of the class is hidden.

the rest of the class is hidden.

Hint: Use "min-width."

Create a breakpoint for tablets, which must display the tablet class while

Create a breakpoint for mobile devices, which must display the mobile class

Open your HTML file in the Chrome browser, and open Chrome DevTools.

Create a breakpoint for a PC, which must display the PC class while

Click the device toolbar icon to check your work, and select "responsive" in the dimensions dropdown icon. Then adjust the screen width. The text

should change according to your screen dimensions.

Dimensions: Responsive ▼ 1467 × 1378 60% ▼ No throttling ▼ ◇

× 851

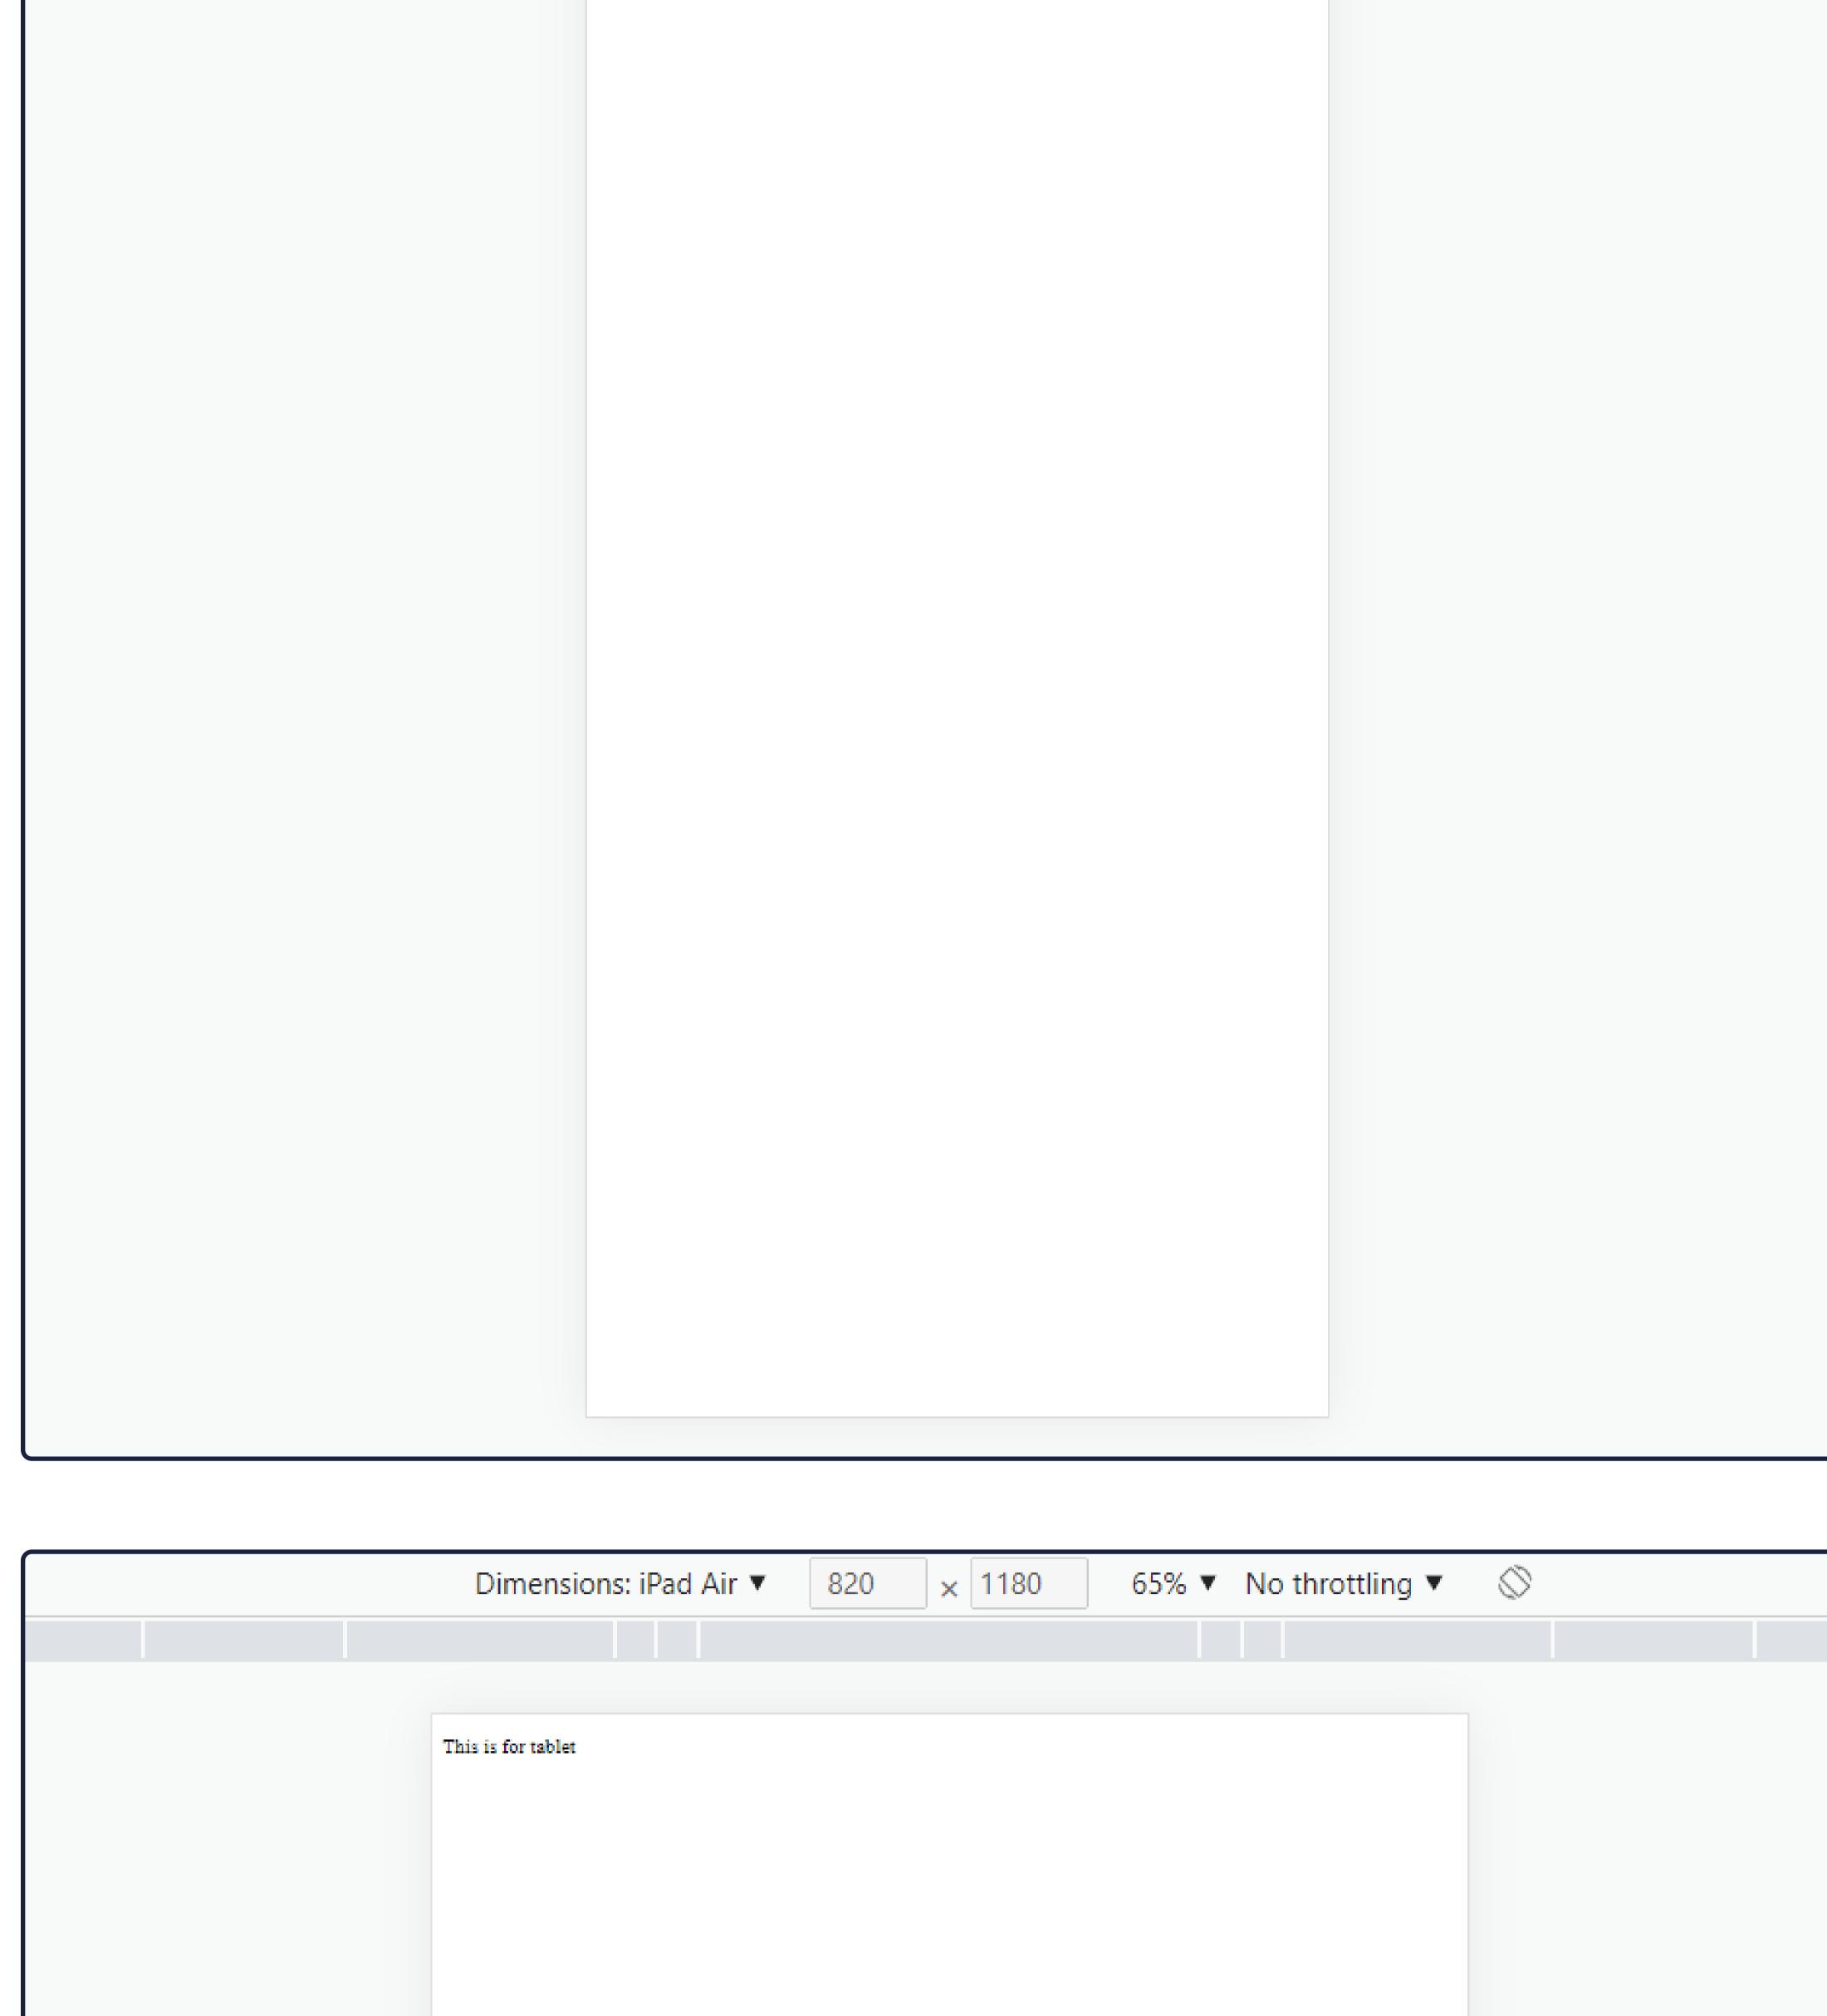

No throttling ▼

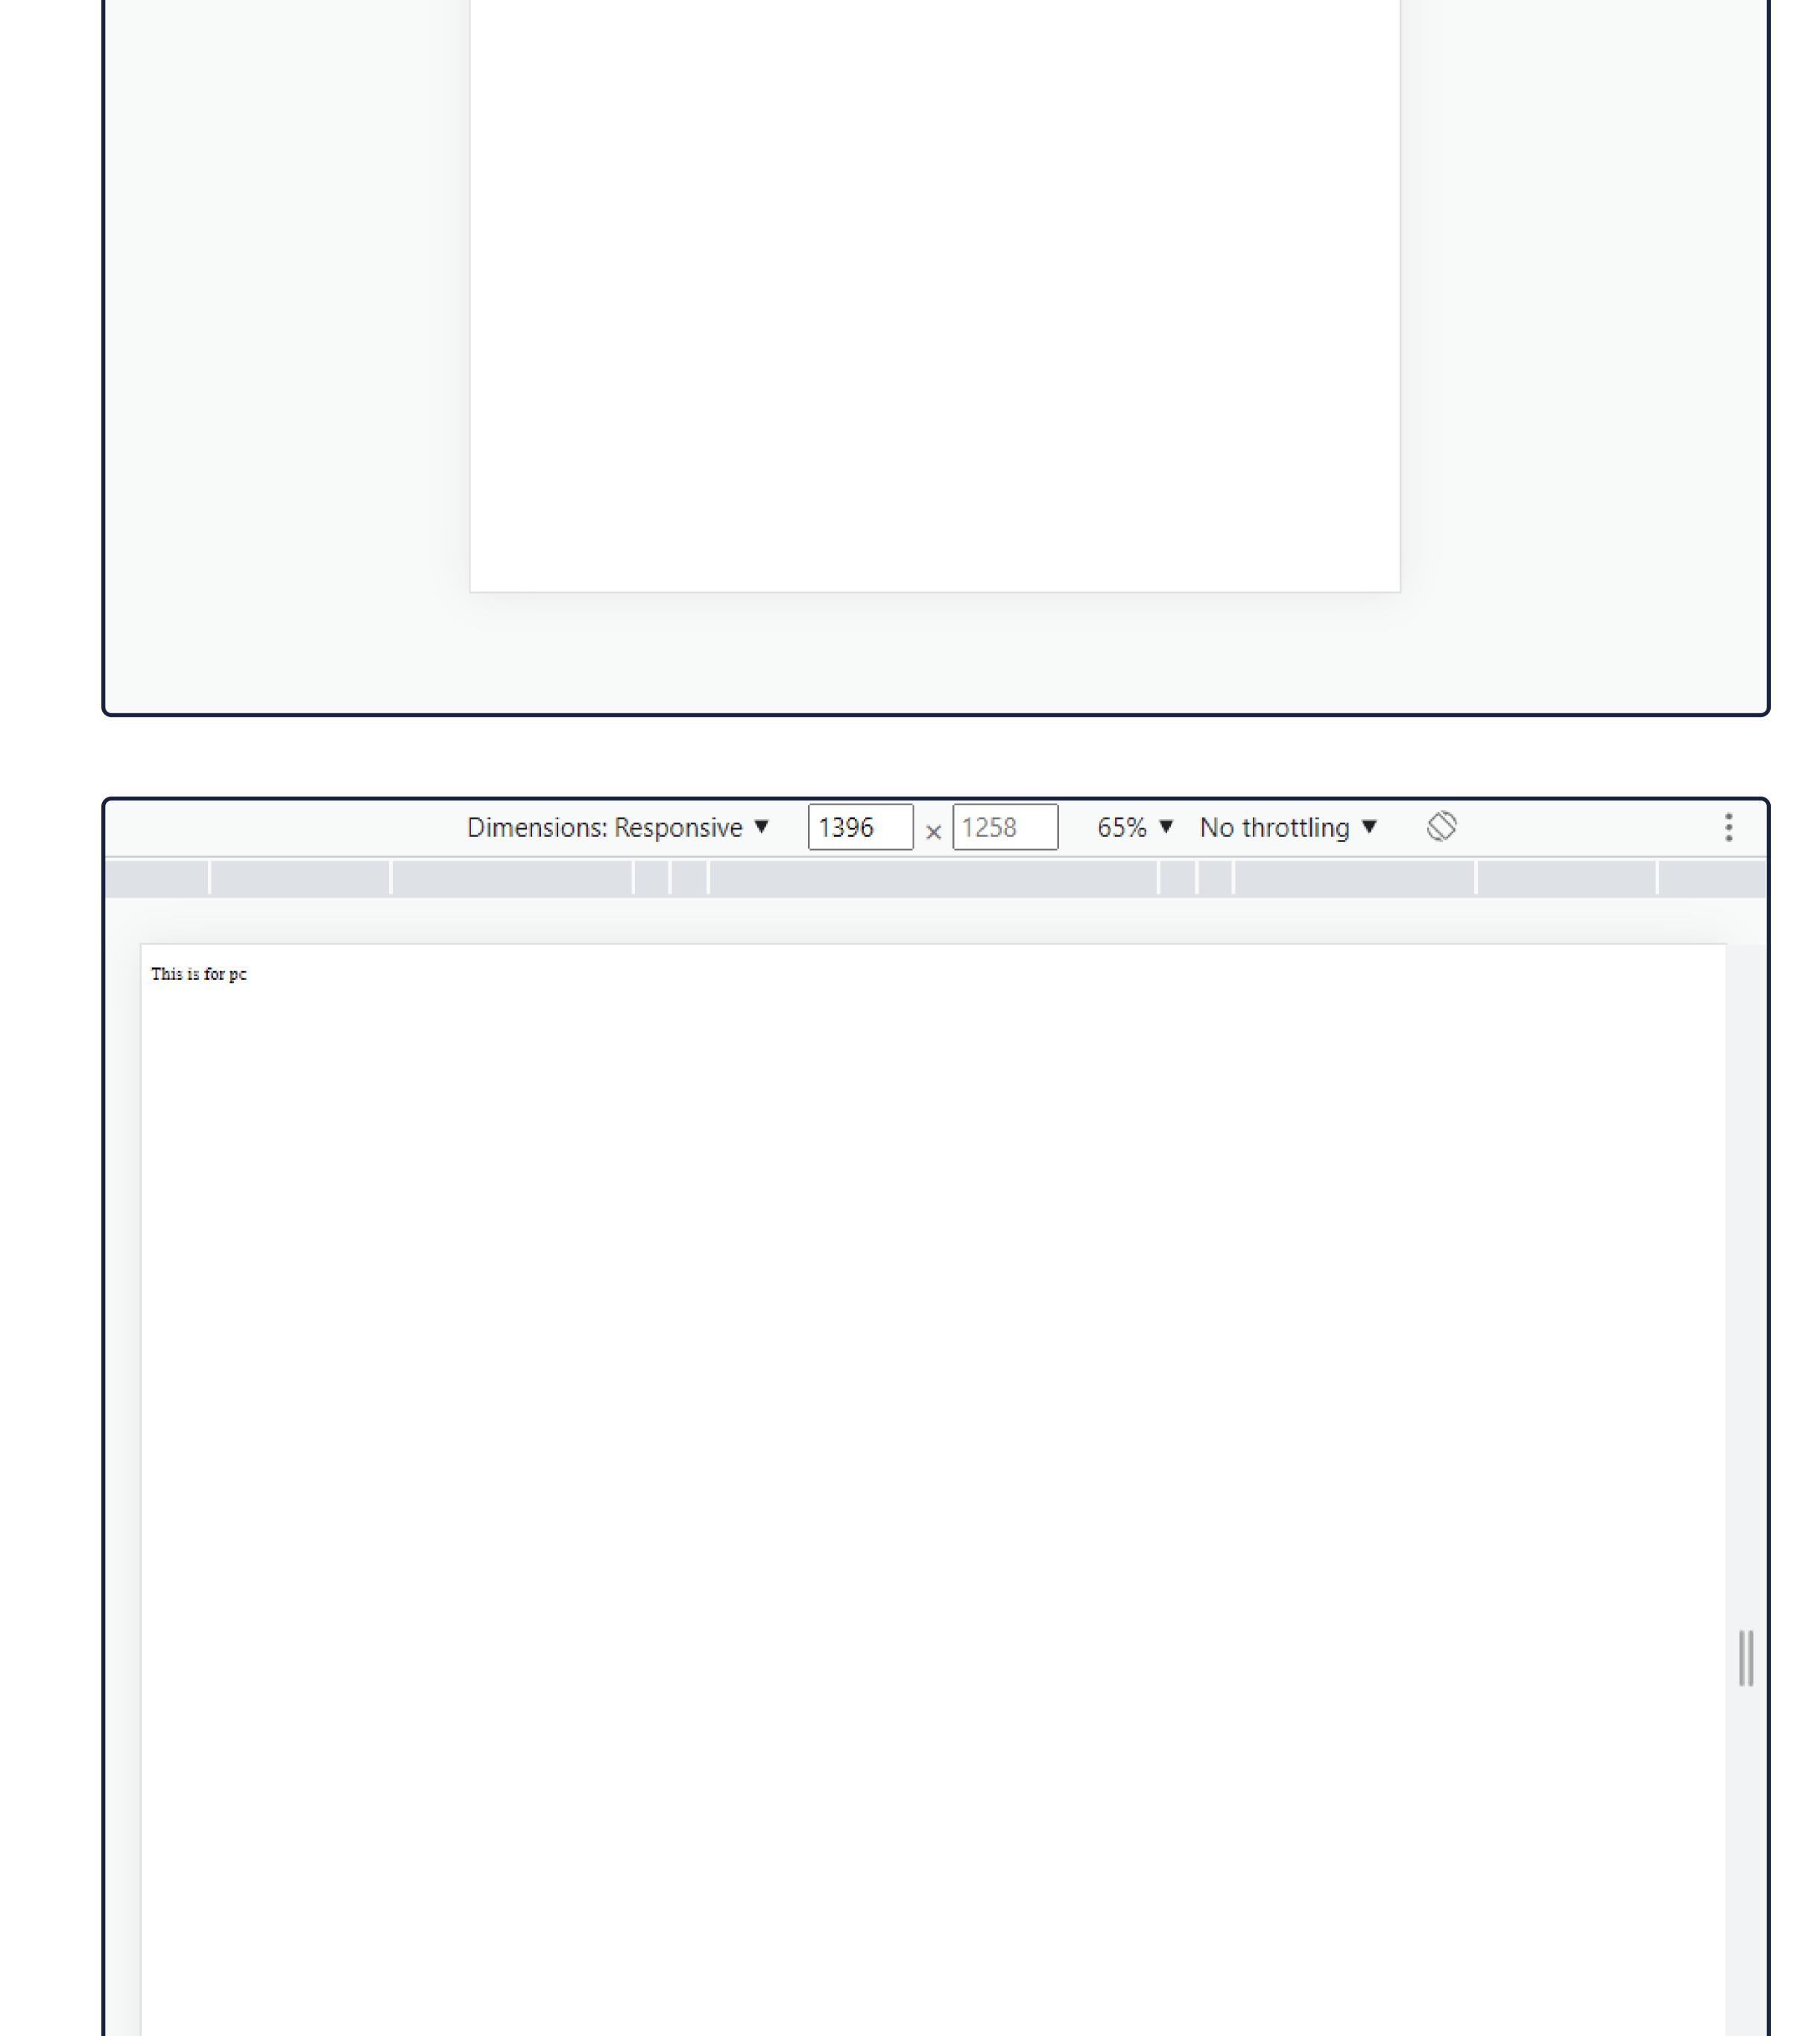

# Dimensions: Pixel 5 ▼

This is for mobile

After completing the assignment, you should see the following results:
