## Home Assignment. Box Model

**Mentor-Review** 

Module 2

Unit 1

Lesson 2

### You need to submit this task for review.

Watch the video lessons to complete this task. If you have any questions, you may ask your mentor's help via the use the real time chat on the learning platform. You can find it on the down right corner of your screen.

After you submit the completed task, mentors will review it and send their feedback via email. Don't worry if your work is not approved: you can always retake the assignment, and it won't affect your final grade.

## Goal

Test your ability to manipulate the CSS box model.

## The assignment has two parts: basic and advanced.

To pass the assignment, you need to complete only the basic part. However, we recommend you complete both parts to master your skills and achieve the best results.

# Instructions

To accomplish this goal, follow the steps:

Oreate one HTML and one CSS file on Visual Studio Code.

### Hint

Both of the files should be in the same folder.

2 Link these two files.

### Hint

To do that, use the k> tag.

If you decide to also complete the advanced part, copy and paste the para-

Replicate the design of the basic part.

graphs below, and replicate the design of the advanced part.

Save your work, and convert the folder with HTML and CSS to a ".zip" file.

## Replicate the design using the following specification.

**Basic Part** 

Hint You can start with creating the HTML elements and continue with styling

Quia dolore

them.

voluptatem est, vero harum voluptas aut ab laudantium unde.

Lorem, ipsum dolor.

neque alias, eveniet

Lorem ipsum dolor sit amet

consectetur, adipisicing elit.

molestias molestiae deleniti,

Color: gray

Line width: 1px

The gray outlined box:

Tag: <div> or <section>

"Lorem ipsum dolor sit amet . . . " paragraph:

Height and width: 400px

14px

Margin at the bottom:

"Lorem, ipsum dolor" title:

Tag: <h1>

**Advanced Part** Replicate the design using shorthand methods.

Padding on all four sides: 16px

Shorthand methods require specific arrangements of values: for top, right,

Padding on the right: 38px

Tag:

Color: red

## Hint

bottom, and left.

### Lorem, ipsum dolor. Lorem ipsum dolor sit amet, consectetur adipisicing elit. Hic rerum facere nesciunt

Odio.

tempora deserunt quas nulla quam blanditiis

perspiciatis quis, ab, dignissimos libero vel.

left—12px, right—13px

"Lorem, ipsum dolor" title:

left and right—5px

Margin: top and bottom—10px,

Padding: top—10px, bottom—11px,

Tag: <h1>

# You can set padding to 0px if you don't want a specific element to have it.

Padding: top and bottom—6px

"Lorem ipsum dolor sit amet . . . " paragraph:

Hint

Tag:

To check your work, use Google Chrome DevTools.

and upload the file here.

Margin: left and right—16px

To upload the assignment, make a ".zip" archive containing all the necessary files,
